

Nr	Abstract title	Presenter	Affiliation
P1	Proper adherence to tuberculosis treatment as a main prerequisite of effective infection control	<i>Aleksandrin, Andriy</i>	NGO Infection control in Ukraine, Kyiv, Ukraine
P2	Epidemiology of ventilator associated pneumonia a matched case control study with incident cases	<i>Ammar, Asma</i>	Farhat Hached University Hospital, Sousse, Tunisia
P3	Investigation and control of multidrug resistant Acinetobacter Baumannii outbreak in a medical intensive care unit	<i>Ammar, Asma</i>	Farhat Hached University Hospital, Sousse, Tunisia
P4	Results and impact of environmental investigation and hand swabbing in a medical intensive care unit	<i>Ammar, Asma</i>	Farhat Hached University Hospital, Sousse, Tunisia
P5	Results of healthcare associated infections surveillance in a Tunisian medical intensive care unit	<i>Ammar, Asma</i>	Farhat Hached University Hospital, Sousse, Tunisia
P6	Comparison of nosocomial vs. non-nosocomial hospital-associated diarrhea caused by Clostridium difficile	<i>Bogdanic, Nikolina</i>	University Hospital for Infectious Diseases „Dr. Fran Mihaljevic”, Zagreb, Croatia
P7	The use of UV fluorescent markers for monitoring cleaning and disinfection practices	<i>Braekeveld, Pedro</i>	Hospithera, Brussels, Belgium
P8	Antibiotic resistance and ability to form biofilm of coagulase negative staphylococci isolated from touch surfaces in hospital wards	<i>Bulanda, Małgorzata</i>	Jagiellonian University Medical College, Krakow, Poland
P9	Drug resistance and virulence of Pseudomonas aeruginosa strains isolated from skin and soft tissue infections	<i>Chmielarczyk, Agnieszka</i>	Jagiellonian University Medical College, Krakow, Poland
P10	Necrotizing fasciitis after the hystrectomy in a previously healthy woman caused by invasive S. agalactiae – a case report	<i>Dobrut, Anna</i>	Jagiellonian University Medical College, Krakow, Poland

Nr	Abstract title	Presenter	Affiliation
P11	Microbiological contamination of new sinks in an intensive care unit	<i>Dopadlik, Dana</i>	University Hospital Essen, Germany
P12	Biofilm production in patients with urinary tract bacterial infection associated with urinary catheterization	<i>Elsokkary, Mohamed Esmail</i>	Al-Azhar University, Cairo, Egypt
P13	Evaluation of hydrogen peroxide and silver cations Vs active chloride disinfection procedures for eradication of multidrug-resistant organisms	<i>Ferrari, Marco</i>	Local Health Authority of the Province of Lodi, Italy
P14	Chasing zero CLABSI: a multidisciplinary approach	<i>Garcia, Ma. Leni</i>	Hamad Medical Corporation - Heart Hospital, Doha, Qatar
P15	Microfluidic approach to MRSA detection: 15 minutes from sample to results	<i>Gewartowski, Kamil</i>	Curiosity Diagnostics sp. z o.o., Warsaw, Poland
P16	Bacteromic – the use of microfluidic technologies for comprehensive antibiotic susceptibility testing	<i>Grzebyk, Monika</i>	Bacteromic sp. z.o.o., Warsaw, Poland
P17	Nosocomial infections in neonatology. Case control study about 184 cases	<i>Hannachi, Hajer</i>	University Hospital in Kairouan, Tunisia
P18	Differences in mortality rates attributable to different levels of antimicrobial resistant <i>Acinetobacter baumannii</i> bacteremia	<i>Jamulitrat, Silom</i>	Prince of Songkla University, Thailand
P19	Isolation precautions: knowledge and perceptions / opinions of healthcare workers of an emergency department	<i>Kawagoe, Julia</i>	Albert Einstein Israelite School of Health Sciences, Sao Paulo, Brasil
P20	Analysis of chosen adverse events, including hospital infections, as an item of risk management process in multispeciality hospital	<i>Kostrzewa, Dariusz</i>	COPERNICUS Sp. zo.o., Gdańsk, Poland

Nr	Abstract title	Presenter	Affiliation
P21	Attitudes and habits concerning stethoscopes and hand hygiene among Polish medical students – a questionnaire study	<i>Kowalczyk, Monika</i>	Jagiellonian University Medical College, Krakow, Poland
P22	Clinical and epidemiological aspects of LRVREF - resistant Enterococcus faecium strains isolated from haematological patients in one hospital	<i>Krawczyk, Beata</i>	Gdansk University of Technology, Poland
P23	Escherichia coli as an etiological agent in sepsis of newborn - genetic analysis of strains	<i>Krawczyk, Beata</i>	Gdansk University of Technology, Poland
P24	About some aspects of the reactivation of varicella zoster in infants	<i>Kristosduryan, Anahit</i>	Yerevan State Medical University after Mkhitar Heratsi, "Muratsan" Clinical Complex, Yerevan, Armenia
P25	Analysis of costs of antibiotic therapy implemented in University Hospital No. 2 in Bydgoszcz in 2014-2016	<i>Kuziemski, Arkadiusz</i>	University Hospital nr 2 Bydgoszcz, Poland
P26	Clinical characteristics of hospital infections registered in the years 2012-2016 in University Hospital No. 2 in Bydgoszcz	<i>Kuziemski, Arkadiusz</i>	University Hospital nr 2 Bydgoszcz, Poland
P27	Etiology of hospital infections registered in University Hospital No. 2 in Bydgoszcz in 2015-2016	<i>Kuziemski, Arkadiusz</i>	University Hospital nr 2 Bydgoszcz, Poland
P28	How to improve antibiotic prescription? Barriers and suggested antibiotic stewardship interventions in two Portuguese hospitals	<i>Lapao, Luis</i>	NOVA University of Lisbon, Portugal
P29	Proposal of Pseudomonas aeruginosa ESBL-positive strains new detection scheme	<i>Laudy, Agnieszka E.</i>	Medical University of Warsaw, Poland
P30	A complementary tool to validate surgical site infection surveillance data (VINCat Program, Catalonia, Spain)	<i>Limon Caceres, Enrique</i>	VINCat Program (Catalan Healthcare System), Barcelona, Spain

Nr	Abstract title	Presenter	Affiliation
P31	Hospital acquired infection: case study of a 51 year old man admitted to intensive care unit	<i>Louw, Alna</i>	Rhino Park Private Hospital, Windhoek, Namibia
P32	Blood exposure accidents among intern trainees in medicine: from analysis to action	<i>Mahjoub, Mohamed</i>	University Hospital Farhat Hached, Sousse, Tunisia
P33	Blood exposure accidents' among resident surgeons	<i>Mahjoub, Mohamed</i>	University Hospital Farhat Hached, Sousse, Tunisia
P34	Compliance rate to good hygiene practices in unconscious patients' artificial feeding	<i>Mahjoub, Mohamed</i>	University Hospital Farhat Hached, Sousse, Tunisia
P35	Healthcare associated infections' risks awareness: influence of physician's experience and age	<i>Mahjoub, Mohamed</i>	University Hospital Farhat Hached, Sousse, Tunisia
P36	Medical device vigilance: physicians' knowledge, attitudes and practices	<i>Mahjoub, Mohamed</i>	University Hospital Farhat Hached, Sousse, Tunisia
P37	Prevention of healthcare associated infections in general medicine of liberal sector	<i>Mahjoub, Mohamed</i>	University Hospital Farhat Hached, Sousse, Tunisia
P38	The blood exposure accident among trainees in medicine: from analysis to action	<i>Mahjoub, Mohamed</i>	University Hospital Farhat Hached, Sousse, Tunisia
P39	Measurement of safety culture nearby healthcare workers	<i>Merzougui, Latifa</i>	University Hospital in Kairouan, Tunisia
P40	Prevalence and characteristics of Candida bloodstream infections in non-neutropenic patients of intensive care unit in West Pomeranian region	<i>Mnichowska-Polanowska, Magdalena</i>	Pomeranian-Medical University, Szczecin, Poland
P41	Electronic monitoring – using data to move culture from belief to reality	<i>Moore, Theresa Christine</i>	Sinai Health System, Toronto, Canada
P42	Impact of promotional multi-component campaign on influenza vaccination coverage in healthcare workers in University Medical Centre Ljubljana	<i>Mrvic, Tatjana</i>	University Medical Centre Ljubljana, Slovenia

Nr	Abstract title	Presenter	Affiliation
P43	Study of the lethality of infection/colonization by multidrug-resistant bacteria in hospitals of the Valencian Community (Spain)	<i>Muñoz-Miguel, Julio</i>	University Hospital Valencia, Spain
P44	Timing for hospital patient isolation after report of multi-drug-resistant organisms (MDRO's)	<i>Novati, Roberto</i>	Valle d'Aosta Health Agency, Aosta, Italy
P45	Role of immunization of healthcare workers in prevention of nosocomial infections	<i>Obradovic, Zarema</i>	Public Health Institute of Canton Sarajevo and University of Sarajevo, Bosnia and Herzegovina
P46	Gas gangrene of Clostridium perfringens in two patients simultaneously hospitalized in a single department	<i>Ochońska, Dorota</i>	Jagiellonian University Medical College, Krakow, Poland
P47	Epidemiological typing of ESBL-producing Klebsiella pneumoniae strains isolated in 2016 from the John Paul II Hospital in Krakow	<i>Ochońska, Dorota</i>	Jagiellonian University Medical College, Krakow, Poland
P48	Impact of beta-lactamase-producing enterobacteriaceae on the rise of MDRO related healthcare associated infections	<i>Orti-Lucas, Rafael Manuel</i>	University Hospital Valencia, Spain
P49	Susceptibility and genetic relatedness of Klebsiella pneumoniae isolated from hospitalized patients	<i>Pruss, Agata</i>	Pomeranian Medical University, Szczecin, Poland
P50	Colistin resistance among Klebsiella pneumoniae strains in Pomeranian region hospitals	<i>Pruss, Agata</i>	Pomeranian Medical University, Szczecin, Poland
P51	Implementing an antibiotic stewardship information system to improve prevention and control of antibiotic resistant infections: a co-design process	<i>Raimundo Maia, Mélanie</i>	NOVA University of Lisbon, Portugal
P52	The use of disinfection solutions must be verified	<i>Rasnoveanu, Delia Mihaela</i>	University Dunarea de Jos Galati, Braila, Romania

Nr	Abstract title	Presenter	Affiliation
P53	Characterization of <i>Staphylococcus aureus</i> strains isolated from cases of ear infections	<i>Romaniszyn, Dorota</i>	Jagiellonian University Medical College, Krakow, Poland
P54	Bloodstream infections in Polish intensive care units	<i>Różańska, Anna</i>	Jagiellonian University Medical College, Krakow, Poland
P55	Bare below the elbows: is this policy performed by healthcare workers in Poland?	<i>Rozkiewicz, Dorota</i>	Medical University, Bialystok, Poland
P56	Performance of risk adjustment between the former NNIS risk index and the new NHSN risk model for postoperative colorectal surgical site infection	<i>Sangsuwan, Tharntip</i>	Prince of Songkla University, Thailand
P57	An effective intervention to eradicate <i>Serratia marcescens</i> during an outbreak of catheter-associated bacteremia	<i>Silva, Mirta</i>	Hospital Interzonal De Ezeiza "Dr. Alberto Eurnekian", Ezeiza, Argentina
P58	Traffic flow and microbial air contamination in operating rooms at a major teaching hospital in Ghana	<i>Stauning, Marius Tving</i>	Copenhagen University Hospital, Denmark
P59	Genetic relationship of intraoperative airborne bacteria and bacteria causing surgical site infections at a major Ghanaian Teaching Hospital	<i>Stauning, Marius Tving</i>	Copenhagen University Hospital, Denmark
P60	Investigation of nosocomial outbreak due to <i>Acinetobacter baumannii</i> MDR in surgical unit	<i>Szczypta, Anna</i>	Andrzej Frycz Modrzewski Krakow University, Poland
P61	Drawing contest at the Albert Szent-Györgyi Health Centre of University of Szeged to promote hand hygiene	<i>Szél, Borbála</i>	Albert Szent-Györgyi Health Centre, University of Szeged, Hungary
P62	VRE infections in ICU patients – an experience report from two specialist hospitals in Krakow, Poland	<i>Talaga-Ćwiertnia, Katarzyna</i>	Jagiellonian University Medical College, Krakow, Poland

Nr	Abstract title	Presenter	Affiliation
P63	Evaluation of the activity of different disinfectants in relation to various bacterial biofilms	<i>Tyski, Stefan</i>	Medical University of Warsaw, Poland
P64	Global survey on the handling of human waste and bedpan management	<i>van Knippenberg-Gordebeke, Gertie</i>	KNIP, The Netherlands
P65	Can the patient be a partner in the prophylaxis of healthcare associated infections in Poland?	<i>Walaszek, Marta</i>	State Higher Vocational School, Tarnów, Poland
P66	Disinfection efficacy is impacted by strain, disinfectant type, concentration, and contact time	<i>West, Alyssa</i>	Purdue University, West Lafayette, Indiana, USA
P67	Airborne <i>Aspergillus fumigatus</i> spore concentration during demolition of a building on a hospital area	<i>Wirmann, Linda</i>	University Hospital Essen, Germany
P68	Superinfection with different human cytomegalovirus (HCMV) strains following allogeneic hematopoietic stem cell transplantation (allo-HSCT)	<i>Zawilińska, Barbara</i>	Jagiellonian University Medical College, Krakow, Poland
P69	FISH and PCR versus blood culture as screening tests for sepsis in children and the influence of antibiotherapy on the detectability of bacteria	<i>Źródłowski, Tomasz W.</i>	John Paul II Hospital, Krakow, Poland
P70	Food poisoning and infections in Bochnia and Malopolska voivodeship in 2014-2016	<i>Zwirska, Jasmina</i>	Jagiellonian University Medical College, Krakow, Poland
